# First in the World!

Fire extinguishing chemical agents are nano-encapsulated in a sheet, automatically reacting to temperature rise to be released and extinguish fire.

Automatic Fire Extinguisher

"Fire Extinguished at the Point of Ignition"  
is the new concept realised by AFiX.

Simply stick it, and you can hugely  
save installation space and cost as well as maintenance cost

Apply to varieties of equipment  
even in complex spaces and unprecedented areas
